

## Climate Change Leadership

Spring 2022

### Literature

During the course, we will use weekly learning material, in addition to the course books. On Studium, the online learning environment, you will find 3-5 texts, videos, audio files and/or other learning material per week. When the modules are published, you can click on the specific session page to find the literature and videos for that day.

Below, the mandatory books for this course are outlined. Note: **you can choose to read either 2A “The End of ice” or 2B “Climate Changed”, and either 4A “The Great Derangement” or 4B “The Future Earth”.**

Of each book, there are printed copies or eBooks available at the Uppsala University library, which can be reserved and accessed through the library website, at [ub.uu.se](http://ub.uu.se).
