## Examination Schedule

### Sustainability and Development in Latin America - Autumn 2022

Assessment requirements for Sustainability and Development in Latin America, according to the [course syllabus](#), are as follows:

*The student is examined through written preparation for (2 credits) and active participation in seminars and workshops (1.5 credits), and through written documentation (3.5 credits) and oral presentation (0.5 credit) of a project.*

Sustainability and Development in Latin America is a graded course. The graded component of the course is determined by the final individual written assignment as marked below.

The course learning outcomes are the following:

- 1. give an account of, and critically analyse countries and actors work for sustainable development in Latin America from a historic and contemporary perspective*
- 2. give an account of, and be able to relate to in a critical manner, different perspectives on sustainability, development, power relationships and justice in Latin America from a historic and contemporary perspective*
- 3. give an account of, and value different visions of the future and sustainability in Latinamerica on local through international levels*
- 4. initiate, plan, deliver and evaluate a well defined project within the topics of the course.*
