

Sustainable Development Project Management and Communication

CEMUS | Centre for Environment and Development Studies | 2022 Autumn Semester

Hello! Welcome to CEMUS and the course “Sustainable Development Project Management and Communication” (SDPMC).

We are the new course coordinators for the upcoming SDPMC course and we are excited to see you and to engage with you through an interdisciplinary and thought-provoking course: a course that gives you the opportunity to do a sustainability project, reach others and give you the possibility to help change the world. You will gain a critical perspective towards sustainability and learn about team dynamics, communication skills, inclusive project management, the use of various methods in conducting a project such as systems thinking and design thinking.

We look forward to taking on this exciting course together and seeing you at the introduction on **Tuesday, August 30th at 09:15 in Geocentrum**. You can find a map of Geocentrum at the following link:

https://use.mazemap.com/#v=1&config=uu&zlevel=1¢er=17.629201,59.848625&zoom=18&c_ampusid=49&sharepoitype=poi&sharepoi=400723

Below is some practical information about the course. Please read through it and contact us if you have any questions, at bella.klaus@cemus.uu.se and francis.rogers@cemus.uu.se

We look forward to meeting you soon!

Bella Klaus (she/her) and Francis Rogers (they/them)
Course Coordinators

Course Schedule

The course runs from the end of August to mid-January. The sessions will be held during Tuesday, Wednesday, and Thursday mornings, from 9-12. A preliminary schedule and further information will be available on Studium:

For some more information, please check the course page:

<http://www.cemus.uu.se/sdpmc/>

The course schedule will be divided into four modules based on the design thinking method; each module will be introduced in detail throughout the course with a clear introduction at the beginning:

Module 1 – Discover.

Module 2 – Define.

Module 3 – Develop.

Module 4 – Deliver.

The teaching consists of lectures, workshops, and seminars. The lectures are given by guest lecturers from different academic disciplines and other relevant societal sectors. The teaching method is based on active student participation and critical thinking.

Course Examination

The examination is broken down into the following components. Specific instructions for each task will be issued during the course.

- Written documentation (8 credits) and oral presentation (1 credit) of an applied project work.
- Written preparation for (3 credits) and active participation in seminars and workshops (3 credits).

More detail can be found in the **SDPMC Examination document**, which is uploaded on Studium.

A large focus of this course is a sustainability project conducted by students. To see examples of past projects, visit the course webpage here: <http://www.web.cemus.se/sdpmc-project-short-films/>.

Course Literature

During the course you are required to read the following books, as well as articles from an online course reader available on Studium. You will also read project specific material that you gather yourselves. Make sure to come prepared to all classes, having completed the associated reading. The online course reader acts as a guide for what should be read and by when. It also indicates what is required reading and what is recommended for further learning.

The course literature includes four **books**:

- Brown, A.M., (2017) Emergent Strategy, A K Pr Distribution.
- Edited by Stibbe, A. (2009) The Handbook of Sustainability Literacy, Skills for a changing world, Green Books. Cambridge England.
- Edited by Hopkins, R. (2015) 21 Stories of Transition: how a movement of communities is coming together to reimagine and rebuild our world. [booklet], Transition Network. Available here:
https://transitionnetwork.org/wp-content/uploads/2018/04/COP21_21_Stories_email_Eng.pdf
- Stanford D.School (2018). Design Thinking Bootleg Bootcamp. [booklet]
