

# Climate Change Leadership

Spring 2023

## Literature

During the course, we will use weekly learning material, in addition to the course books. On Studium, the online learning environment, you will find texts, videos, audio files and/or other learning material per week. When the modules are published, you can click on the specific session page to find the literature and videos for that day.

Below, the **mandatory books** for this course are outlined in **red**. Note: **you can choose to read either 2A “The End of ice” or 2B “All We Can Save” or 2C “1000 voices on Climate change”**, and **either 4A “The Great Derangement” or 4B “Organising responses to Climate change” or 4C “Tropic of Chaos”**.

Of each book, there are printed copies or eBooks available at the Uppsala University library, which can be reserved and accessed through the library website, at [ub.uu.se](http://ub.uu.se).

All books are available to read at the CEMUS library, it is important to note that you cannot take them out of the CEMUS library but read them in the library space.
